*Q1. Beloved Sri Bhagavan, when we go through our lives through deeksha, the Kundalini energy rises and falls. And we often go through deep process - some of which are very painful. How can we experience a fast breakthrough into joy? Thank you Bhagavan.*

**Sri Bhagavan: The deeksha and the processes keep working on the Kundalini. As the Kundalini rises, there comes a point where you'd be staying with the "what is" without effort for about 49 minutes. Once that happens, joy spontaneously and naturally keeps flowing into you for no reason. What you people have to do is keep taking the deekshas and allow the process to start. If you want a process to move fast, then you must go to the sacred chambers. We hope there could be sacred chambers in your country specifically for awakening. When that happens, your growth would be very very fast.**

*Thank you Bhagavan.*

*Q2. Beloved Bhagavan, many of us are already awakened and confirmed by the Oneness University as awakened ones. At what level do we experience unity with ourselves and what is the essential for that?*

**Sri Bhagavan: When you are able to stay with the "what is" without effort for 49 minutes, you begin to develop unity consciousness, you become completely one inside.**

*Thank you Bhagavan*

*Q3. Beloved Bhagavan, thank you for the gift of the three chambers. Up to now we have 3 places in Austria where we offer this wonderful process. How does the specification of the Paramatma in the three chambers happen? And do they depend on the person who conducts the process and do place and demand also influence it? Thank you Bhagavan.*

**Sri Bhagavan: How the Divine is going to manifest depends on the place, its past history and then what the needs are for that place and the person conducting the chambers. It depends on all these factors.**

*Thank you Bhagavan.*

*Q4. Dear Bhagavan - in the webcast the teaching of the week is no longer displayed and thus occurred in the background. Should we combine the teaching with the Golden Ball Meditation?*

**Sri Bhagavan: You could do the two things separately. When we appear on the screen you could do the golden ball meditation. After it is over, you could contemplate on the teaching. The golden ball meditation you must do along with me. I am doing it for your sake.**

*Thank you Bhagavan*

*Q5. My beloved Bhagavan, what can I do when I seem to be stuck on a physical level and therefore I again and again fall back into self-destructive behaviors? Thank you Bhagavan.*

**Sri Bhagavan: In such a case, the best thing would be to become intensely aware of your destructive tendencies and then go and take help in the chambers.**

*Thank you Bhagavan.*

**Q6.** *Dear Bhagavan, I am 7 years with Oneness and as a trainer I felt to help the people and their connection to the Divine. In all the time I was hoping that it becomes like a snowball and people passed on what was given to them. There happened many small miracles but the people, the mind forgets it again, dismisses it, is ungrateful and takes it for granted.*

*So I have the questions for you Bhagavan - how it goes on with the world and also for Austria? When will more people begin to act from the heart? When will the dominance of mind be solved and also the financial crisis and the agitation of humanity? When will it be easier? I myself I am also tired and exhausted swinging back and forth between peace and awakening and extreme mind attacks. There is still lack of faith in life and in the Divine. Please can you help me Bhagavan.*

**Sri Bhagavan:** **The very crisis that humanity is now facing would soon give humanity a very big breakthrough. That is the positive side of the crisis.**

*Thank you Bhagavan.*

**Q7.** *Beloved Bhagavan, I thank you from my heart for your work. I don't have enough words to express my gratitude and my enthusiasm.*

*If Amma and you are going to retire now and the Dasas do not continue as before, how will Oneness Movement look like? Will the courses still be conducted in the Oneness University? What does this great change mean for us and for our countries? Bhagavan in the temple you said that Paramatma has already taken over 90% and in the end of the year Paramatma will take over 100%. The guides will receive the teaching only from Paramatma and AmmaBhagavan will retire. But Bhagavan will still answer questions. Beloved Bhagavan, can you please tell us something about this? And I ask you for your blessing for the awakening of entire Austria. Thank you from all my heart beloved Bhagavan.*

**Sri Bhagavan:** **The Oneness University would still continue. The courses would still continue. The guides who are monks for 20 years are no more monks. But the community and the guides still exist. They will still conducting courses. They have taken this step because they found Oneness was fast becoming a religion. They do not want Oneness to become yet another organized religion. So they have declared themselves that they are no more monks and that there is no more order.**

**They have always had the freedom to do what they want. Now they have taken this step. All this while Amma and I were guiding them. Now the Paramatma has become physical to most of them and the Paramatma is directly guiding them. What has happened to them would soon happen to all of you. They do not want to stand in between you and the Divine. They want you to become great masters. Hence they took that step. Since the Paramatma has taken over, Amma and I have no more role. Of course till the Paramatma can talk to you I will talk to you. Since you want me to talk to you .... [inaudible]**

*Thank You Bhagavan*

**Q8.** *Beloved Parabrahma Sri Bhagavan. My heart is full of joy because we have the opportunity today to have a darshan with you. Thank you so much. I feel you more and more everyday and I love you so much. Bhagavan my question is when we look into the papers we find that the world is becoming more and more worse, world old wars are coming up, western government are becoming fascist attitudes, a new cold war seems to appear, financial crisis is going on. But under the surface we feel more and more people become awakened and many people wake up and start to live from their heart.*

*Is there a connection point between 1 and 2 Bhagavan? Can you please explain Bhagavan. Thank you Bhagavan.*

**Sri Bhagavan:** **The world is shifting from darkness to light, from light to darkness. Now the long night of darkness is slowly coming to an end. But the shift would be almost abrupt. The shift into light is soon going to happen. That would definitely happen for otherwise you are doomed. And since humanity would go on and on the doom would not happen. Light will come and there will be the Golden Age.**

*Thank You Bhagavan.*

**Q9.** *Dear Bhagavan, when I sit in front of my altar or when I am in prayer or when I am doing a Oneness process or a ritual, I am in total surrender to the Divine. Then I have feelings like to melt in the waves of the Indian Ocean. To feel that the love of Divine surrender is guiding me. There is only a sea of love, I feel satisfaction, feel perfection, no attachment, no expectation, there are no sorrows, no emotional arousal, there is only total surrender.. to my Divine. However, in the daily life when I am not sitting in front of my altar, when I am not in prayer or doing my rituals I feel so empty and there is a feeling of senseless and I do not grow in my life, in my work, in my relationship and so on. I am stuck. What am I doing wrong Bhagavan? Thank you Bhagavan.*

**Sri Bhagavan:** **There is nothing to worry about this. This happens to all the great masters once in awhile. For you also soon it will become less and less frequent. It all depends on how the Kundalini is flowing. It is not in your hands and there is nothing you could do about it. You have to simply wait it out.**

*Thank You Bhagavan.*

*Q10. Dear Bhagavan, How can we overcome hollow traditions and support the independent and the autonomous in me so that all will find the knowledge of the one truth and its one source of love? Thank you Bhagavan.*

**Sri Bhagavan:** The basic teaching of Oneness is that there is no path to truth or to the ultimate. Only if you give up all paths you will discover your own path. It is only your path which could take you there. Everyone's path is unique. If you follow any path there is no hope for you. This includes Oneness also. If you make Oneness into a path there is no hope for you. You could however try your various paths. But then you must come to the realization that no path can take you there. That is the turning point. You must throw out all paths. That is the first step. That is the last step. That's why the vision statement of Oneness is to set man totally free. That freedom is Awakening. That freedom is living. Otherwise you are merely walking corpses. You are only existing, you are not living. You must drop off all paths. Nobody followed any path and got there. There is no such path. Because every human being is unique. What works for you would not work for another.

Oneness aims at freeing you from all paths. That is the true meaning of Oneness. Also Oneness liberates you from a judging, punishing God. Such a God does not exist. Unless you create such a God. That is why you have to create your own personal God. That is the God who could help you. But if you depend on a God who is going to judge you, who is going to punish you, who is going to dictate terms to you, there is no hope for you. Because such a God does not exist. That God is a figment of your imagination. God and man are two ends of the same reality. The Divine is unmanifest. It is nameless. It is formless. It is you who give it a name, you who give it a form, you who give it qualities. Then the Divine manifests as light or as a golden ball or as any form. When the Divine manifests we call them God. It is all in your hands. So Oneness liberates you from a controlling, tyrannical, punishing God. Oneness liberates you from God, Oneness liberates you from all paths. That is why the vision of Oneness is to set humanity completely free.

Thank You Bhagavan.

*Q11. Bhagavan, is there an administration that secures the survival and spread of these teachings Bhagavan? Thank you Bhagavan.*

**Sri Bhagavan:** The Oneness University would continue. The teachings would live in your hearts and you would spread it. You are the heads of Oneness.

*Thanks to Gunnar Gresl, Veneet Kumar, Rocco Oneness, and Silvia Goode for translation help and transcripts at this event.*
